

EQUIPE

EQUIPE

Introducing a very special Allegro that looks like it moves and moves like its looks.

The Equipe.

The powerful 1750 transverse overhead cam power unit has twin carbs and five forward gears and develops 90 bhp at 5,500 rev/min.

Which simply means 0-60 mph in 10 secs. and a top speed of 100 mph.*

Sports car performance in anybody's language.

Standard features include alloy road wheels, low profile Michelin 165/70-13 radials, halogen headlights, front and rear foglamps, tinted glass, metallic paintwork and a matt black front spoiler

designed to maintain stability at higher speeds.

And that's only the outside.

The interior features alloy spoke steering wheel, tachometer, clock, push-button radio, inertia-reel front seat belts and unique cloth seating in racing check.

See the Equipe at your nearest Austin Morris showroom. But you'd better be quick because the Equipe is a Limited Edition that's going to move like its looks.

Vroom, vroom.
